ISTHMAN

#### Naming of the YEARBOOK . . . . .

A total of 72 different names were submitted for consideration by the Macomber-Whitney Yearbook Staff. These ranged from one word to eight worded phrases and each were considered and thoughtfully reconsidered.

Prior to selecting the name the Staff agreed their choice would reflect an unbiased, liberal, and unique name.

Considering the many names and the thoughts or feelings submitted, the Staff chose the name "THE ISTHMIAN".

By definition "ISTHMIAN" means: one who inhabits or was born on an Isthmus; specially (Ethnol) one of a tribe living on the Isthmus of Panama: a geographic rather than an ethnic division.

The staff considers the Macomber and Whitney Complex as the two large bodies of lands connected by an Isthmus (the pride, spirit and the oneness of the student body being the inhabitants, therefore, ISTHMIANS).

The name chosen represents the most non-ethnic, descriptive, liberal, and unique in the mind and heart of the Staff.

Remember, reflect, recall. You have passed through yet another year and are facing into an unknown future. But the Macomber / Whitney student can face the unknown with a confidence that is rare to find. Your education here has given you this confidence, this determination.

Now, as you pass from Macomber / Whitney's doors for the last time you are stepping out into the future, a future that is bright, challenging and sound.

This book, dedicated to this years seniors, will hopefully help you recall your fondest memories at Macomber / Whitney, but bring you to the realization that this is just the beginning, and a bright and promising future awaits you.

Remember, reflect, recall, but only for a moment, for the past is gone and cannot be changed only the future can be molded to the outcome you desire.

The Macomber / Whitney Yearbook Staff would like to thank Dave Parker, Manager of Wildwood Preserve Metropark for the cover photo. We would also like to thank the Metroparks for their assistance in the Homecoming pictures.

So here we are at the closing of another year. It seemed as if it might go forever, but none the less here we are. Its a time to reflect to recall. For many of us, it is the end, others, just the beginning. But no matter where you stand it is a time to reflect.

Remember the good times, the bad, laughing friends, the swelling cheers at a football game, the ringing of the final bell on Friday. But most of all remember what you learned, whether you learned it from a teacher or from yourself. Take a second, look back, reflect, recall.

For you it may have been bad, it may have been good, but you're the better for it. You are now better prepared to take on the world you are to enter. Your future is bright, your outlook good. Look forward, onward, it's there, its bright, but most important, its yours!

It involved a skit and teachers trying out for cheerleaders. It all led to a fun afternoon.

For the juniors this year it marks the end of their third year. One to go. It may seem as if its a long way away, but just remember how fast these three years went!

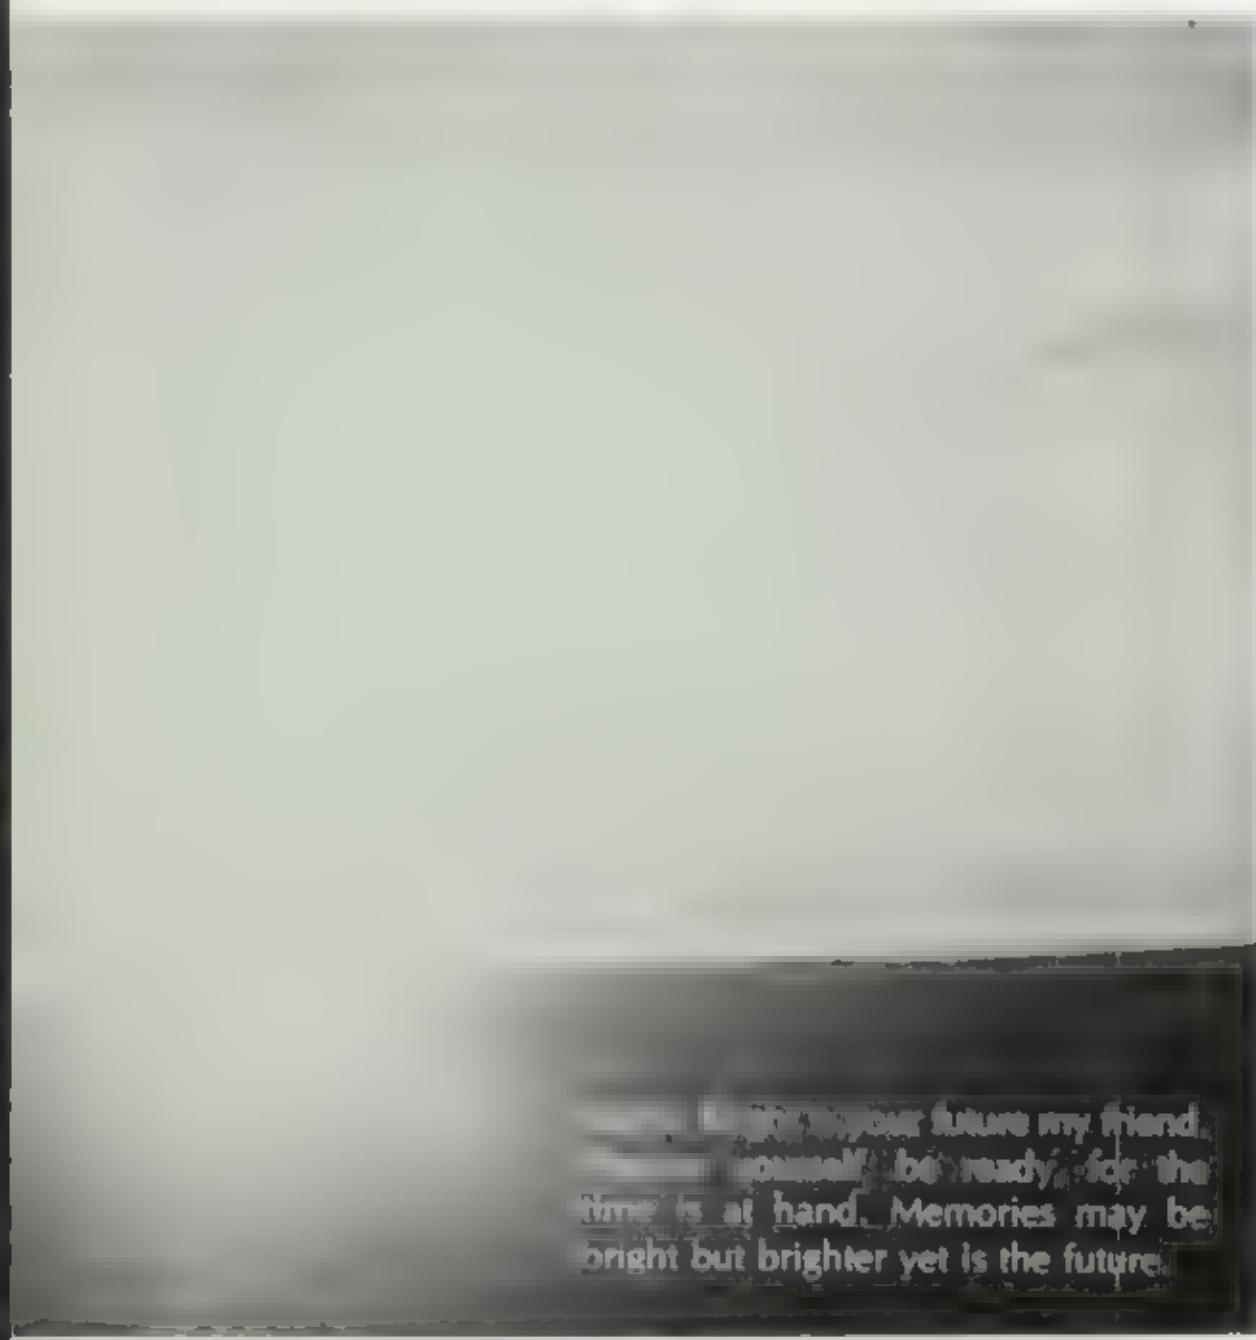

In September you will become Macomber seniors, a responsibility not to be taken lightly. Look forward to it, be proud of it, prepare yourselves for the last year, then you too can look to a bright future

SENIOR RETAKES

Remember, recall. Sure this year had its bad times, but now remember the good times that can never be relived, only in our memories. It feels good to remember, but now is the time to look ahead

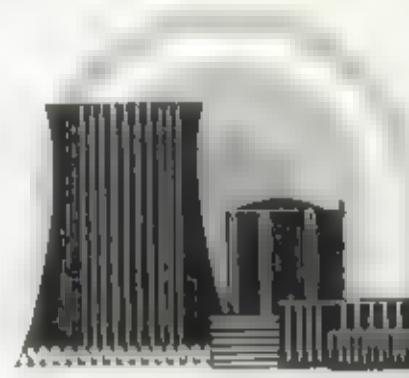

those moving on like you can  
you. It's big, beautiful, ab-  
solutely unique, just like  
the Grand Canyon; it won't  
be around forever. You've  
already invested time and effort  
into it with more to come. Be pro-  
active and now look ahead for the future is yours. You're  
going to jump into it, and use it wisely. Good Luck.

## Looking toward the future...

As supplies of natural gas and oil continue to grow scarce, electricity will play an even larger role in meeting the expanding energy needs of our society. That's why Toledo Edison is developing new sources of energy, such as nuclear power, and planning ahead for the power needs of 1990 and beyond.

We're determined to meet this challenge and provide the best possible electric service for your generation and others that follow.
